

CHRISTAN BURRAN Make-up Artist

❧ Christan Burran was born in Atlanta, Georgia and started doing make-up as a young girl, learning most of her tricks from her grandmother, Zula, a top selling Avon lady.

Christan's approach to make-up is simple, wear what you love and experiment with color. She uses vibrant color in different ways that one might not expect like a Gold shimmer eyeshadow with a light lilac kind of lip or try a mix of peachy orange eyeshadow with a super nude matte lip. It's all about a modern look that can also work in the real world. All the models love to see Christan on their shoots because of her beautiful make-up and good energy. She starts each Make-up application with an aromatherapy face and neck massage to relax the models and create a beautiful canvas to start with. Christan brings more to a shoot than just Make-up. For her it's about making people feel good and comfortable with their own unique beauty.

Christan has worked in the fashion and beauty industry for over 15 years. Doing make-up for editorial and advertising bookings. A well known beauty expert and creator of original make-up artistry and concepts.
